# 1. Message from John French, Chief Executive

Dear Applicant,

Thank you for taking the time to read this Guide for Applicants.

This is an exciting time to join us, as we are expanding as an organisation so that we can fully support Northern Ireland in meeting the challenges of climate change, the cost-of-living crisis and ensuring the continuity of energy and water supplies.

Electricity, gas and water are essential services that support all homes and businesses in Northern Ireland. As an economic regulator, it is our role to enable, incentivise and hold energy and water companies to account for providing the very best levels of service and price for consumers both now and in the future.

We are ambitious about the future of the Utility Regulator. It is essential that we can enthusiastically and professionally support Northern Ireland in its transition to a net-zero carbon economy, whilst ensuring affordable and good quality electricity, gas and water services for all.

We want the Utility Regulator to be the best possible organisation to work for. We need passionate people who have the skills, potential and motivation to make a difference to the lives of people in Northern Ireland and its economy. We are looking for people who share these goals and will pursue these with the highest standards of professionalism. For the Utility Regulator to be successful, we will recruit the best candidates from a range of diverse backgrounds. If you strive to provide the highest levels of service for the greater good and your professional values accord with our organisational values, working here will be exactly what you are looking for as the next step in your career path.

We are an employer of choice and are committed to staff wellbeing, inclusion and excellence. Over the last three years we have been awarded Best Companies 'Ones to Watch Good to Work For' status. We have also been successful in gaining the Investors in People Silver award, together with the Diversity Mark and Disability Confident: Committed accreditations.

Working as a Finance and Governance Analyst within the Utility Regulator, you will play a key role in supporting the Head of Finance and Project Management and the wider finance team in the delivery of the finance and risk management functions within the Utility Regulator.

This is a permanent, full-time role, although flexible working (including part-time working) will be considered. Thank you for your interest in joining the Utility Regulator. We very much look forward to receiving your application.

**John French, Chief Executive**

## 2. About the Utility Regulator

The Utility Regulator (UR/our/we) is the independent non-ministerial government department responsible for regulating Northern Ireland’s electricity, gas, water and sewerage industries, to promote the short and long-term interests of consumers.

We are not a policy-making department of government, but we make sure that the energy and water utility industries in Northern Ireland are regulated and developed within ministerial policy as set out in our statutory duties.

We are governed by a Board of Directors and are accountable to the Northern Ireland Assembly through financial and annual reporting obligations.

We are based at Queens House in the centre of Belfast. The Chief Executive and two Executive Directors lead teams in each of the main functional areas in the organisation: CEO Office; Price Controls; Networks and Energy Futures; and Markets and Consumer Protection. The staff team includes economists, engineers, accountants, utility specialists, legal advisors and administration professionals.

### Our mission, vision and values

## Our diversity statement

### Be UR Self

We recognise and value that everyone is unique and that we all have different minds. We want to celebrate your difference so that we can harness your unique talent. To that end, we are a diverse and inclusive organisation as we put the 'you are' into 'UR'. Our success is based on the diversity and uniqueness that each of us brings and on the willingness of staff to accept and value one another. This approach helps us protect consumers by making a positive difference to all households and businesses in Northern Ireland.

### Equality welcoming statement

Northern Ireland continues to have an under-representation of women across STEM (Science, Technology, Engineering and Mathematics) industries. We are an equal opportunities and 'Disability Confident' employer. As people with a disability, people from ethnic minority communities and women are currently under-represented in our workforce, we would welcome applications from these groups.

### What we do

Our statutory objectives are to:

- Protect the short and long-term interests of electricity, gas, water and sewerage consumers with regard to price and quality of service;
- Promote a robust and efficient water and sewerage industry, where appropriate, to deliver high quality services;
- Promote competition, where appropriate, in the generation, transmission and supply of electricity; and
- Promote the development and maintenance of an economic and coordinated natural gas industry.

Our work involves:

- Issuing and maintaining licences for gas, electricity, and water companies to operate in Northern Ireland;
- Making sure that these companies meet relevant legislation and licence obligations;
- Challenging these companies to keep the prices they charge as low as they can be;
- Encouraging regulated companies to be more efficient and responsive to customers;
- Working to encourage competition in the gas, electricity, water, and sewerage services markets;
- Setting the standards of service which regulated companies provide to customers in Northern Ireland; and
- Acting as an adjudicator on certain customer complaints, disputes, and appeals.

Ref: UR/FGA/32/24

We hold concurrent competition law powers and are Northern Ireland's competition authority for its electricity, gas, water and sewerage industries. We have quasi-judicial powers to determine certain complaints, disputes and appeals.

In order to help us protect the interests of electricity, gas and water consumers in Northern Ireland, we work with a range of partner organisations. These include:

- Northern Ireland Executive and Assembly;
- Northern Ireland government departments;
- Energy and water utility companies;
- The Consumer Council for Northern Ireland;
- Government departments and bodies in Great Britain and Ireland, including Ofgem, Ofwat, the Water Industry Commission for Scotland and the Commission for Regulation of Utilities; and
- Non-governmental organisations.

## Applications

In order to help you make this application and ensure that each applicant is provided with the same opportunity, the following advice is offered:

- Do not use acronyms, complex technical detail, etc. Write for the reader who will probably not know your employer or your job. Include concise examples and be sure you can expand on these at interview.
- Listing the titles of the various jobs which you have held will not show how you meet the criteria. The panel will not make assumptions about skills and experience gained from these or the nature/name of the organisation.
- Write down clearly your personal involvement in any experience you quote. Write 'I' statements, for example, I planned meetings, I managed a budget, I prepared a presentation. It is how you actually carried out the piece of work that the panel will be interested in.
- Identify relevant examples – this is very important as examples you provide may be checked out at interview and you need to be prepared to talk about them in detail if invited to interview. It is your unique role the panel is interested in, not your team's.

An application form is designed to ensure you provide the necessary information to determine how you meet the eligibility/short listing criteria required for this post. The panel may decide to interview only those applicants who appear, from the information provided on your application, to be most suitable in terms of relevant experience and ability.

Please note the following information, to ensure equality of opportunity for all applicants:

- On the application form you have been advised of the maximum space available for each question. This is the same for all applicants and must not be altered (except to delete spaces created when you type in your answer);
- CVs, letters, additional pages or any other supplementary material in place of, or in addition to, completed application forms will not be accepted;
- Information in support of your application will not be accepted after the closing deadline. Incomplete application forms will not be considered. Application forms received after the closing deadline or reformatted will not be accepted;
- Please note that the time of receipt of emailed applications will be defined by our computer systems, not the time and date sent,
- Only details provided by you on your application form (employment history and eligibility criteria) will be provided to the selection panel for the purpose of determining eligibility and shortlisting for the post.

## Assessing your application

After the closing date, the first stage in the selection process will be a sift of completed application forms against the essential criteria. You must demonstrate on the relevant page of the application form how you meet each criteria stated. If you do not fully demonstrate by example how you meet each of the criteria, you will not progress to the next stage. Please note, where the criteria requires experience for a minimum length of time, the panel will not refer to the employment history section to demonstrate this. You must state the dates in your answer.

Ref: UR/FGA/32/24

You will be notified of the outcome (successful/unsuccessful) by email.

### Interview

Following shortlisting, it is intended that the selection process will involve an interview against **the criteria, key skills and competencies** for the role. Panels may test any aspect of either the essential criteria or key skills.

Additional selection stages may be needed. We intend that the assessment and interview process will take place at Queens House in Belfast. You will be informed of assessment and interview arrangements closer to the time and notified of the outcome (successful or unsuccessful) by email.

### Disability requirements at interview

We ask on this application form if you require any reasonable adjustments (special requirements), due to disability, to enable you to attend interview. Details of any disability are only used for this purpose and do not form any part of the selection process.

If you have indicated that you have a disability and are successful in the selection process and being considered for appointment, you may be required to outline any adjustments you consider needed to take up an appointment. If you wish to discuss your disability requirements further, please email [recruitment@uregni.gov.uk](mailto:recruitment@uregni.gov.uk).
