12th September 2016

Dear Brian

GNI(UK) Code Modification Proposal 23

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to update the existing Legal and General section of the code to incorporate West Transmission Ltd, to make 'housekeeping changes' following the implementation of the series of Modifications made during 2015 for the purposes of compliance with EU legislation. And in addition, it includes four areas of change intended to update and clarify the Code with regard to System Clearing, Credit Provisions, Assignment and Congestion Management Procedures.

The Utility Regulator (UR) has considered the issues raised by this FMR.

GNI(UK) conclusion

GNI(UK) states in its FMR that the relevant objective (condition 2.4 of the GNI(UK) Licence), would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note no responses were received by GNI(UK) during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

As provided for in condition 2.4.7(c) of the GNI(UK) licence we direct GNI(UK) to implement the modifications as set out in the FMR dated 2nd September 2016. The modifications should become effective as set out FMR No. 23.

Yours sincerely,

Tanya Hedley
Director of Compliance and Network Operations
For and on behalf of NIAUR
